TORONTO BRANCH STRUCK OFF.
Toronto, Ont., May 18th.—The Grand Lodge of the United Brotherhood of Railway Engineers have notified their local lodge here that they have been struck off the lists as no reports have been received by the Grand Lodge for over a year. The employees here claim that order was never in good standing and that it is looked upon generally with disfavour.

SONS OF ENGLAND AT HOME.
A brilliantly successful at home was held in Hounston's Hall last evening under the auspices of the Sons of England Benefit Society. About one hundred guests were present. J. A. Hallier, president of the S.O.E.B.S., occupied the chair. Mr. Barford acted as accompanist throughout the evening. As an evidence of the high character of the program it might be mentioned that it was with the greatest difficulty any progress could be made with the program on account of the repeated encores which followed each number. The program was as follows:—
President's opening remarks.
Chorus, Red, White and Blue.
Piano solo, Mr. V. W. Barford.

At the conclusion of the program a hearty vote of thanks was tendered and the different ones taking part and the very successful entertainment came to an end.

LOCAL
—The train is three hours late.
—John Deere took a business trip to Calgary this morning.

—Mr. and Mrs. Will J. Reid returned to Edmonton Saturday night.

—The Carpenters' Union will meet every Friday night in Gariepy Hall.

—Edmonton orchestra attended a ball in Fort Saskatchewan last night.

—Rev. W. W. Pack preached in the Presbyterian church, Calgary, Sunday evening last.

—Calgary carpenters have gone out on strike. The trouble is over the employment of non-union men.

—One of the results of Canada's exhibit in Japan is an order for 15,000 tons of flour to be shipped immediately.

—Stewart Milne and Harry Leggett, two of Edmonton's young men, left this morning for Calgary, where they have secured situations.

—A patriotic concert will be given in the Methodist church, Fort Saskatchewan, on Monday, May 25th, at 8 p.m. Prof. S. Jones, Director.

—Messrs. Harvey and Leslie came across from Strathcona yesterday with two fine bulls which they bought at the Calgary sale. They will be taken out to their ranch at Bruderheim.

—J. C. Gardner of the Alberta hotel barber shop, received news yesterday of the serious illness of a relative at Los Angeles, California. He leaves tomorrow morning and expects to be away about two months. Chas. Stoddard will manage the barber shop during Mr. Gardner's absence.

Calgary Herald, May 16.—J. A. McIntosh, of the department of public works, Regina, arrived in the city yesterday. He is going to continue the hydrographic work. He has been at it in Alberta for two years. He is arranging all the necessary details before starting out on his trip, and will not be in Calgary again until the snow flies. He expects to go over a large amount of country before returning.

EDMONTON INDUSTRIAL EXHIBITION.
The directors of the Edmonton Industrial Exhibition Association held their regular meeting in F. F. Tim's office last night. The contract for the erection of a dining hall 30x100 feet on the exhibition grounds was awarded to Wm. J. Carter.

The race course has been harrowed and a man has been employed as caretaker of the grounds and race course from now until the time of the fair. He is straightening up the grounds and getting the race course in excellent condition.

A building 40x16 will be erected on the grounds in which to store the material for the great fireworks display. The secretary is still in correspondence with a view to securing further attractions. A world famous bicycle rider and his wife have been engaged to perform marvellous bicycle tricks.

Lithographic posters illustrative of Edmonton's great exhibition have been sent to every hotel and post-office in Alberta. The exhibition management have attempted a new advertising scheme. Five hundred flag posters with "Edmonton at the Fair, June 30th, July 1st and 2nd," printed on them will be sent up on telegraph poles, school houses, sign posts etc. between here and McLeod.

A very large attendance is expected at the exhibition which will be away beyond anything ever before attempted in the Territories.

A COMPLAINT.
Editor Bulletin.
Last winter I drew attention to the fact that the road between the Gallagher-Hull packing house and Edmonton was being used as a nuisance ground, and that farmers, who bring hogs to the packing house, distribute the litter and pig manure out of their wagon boxes along the road.

This is a main highway near town and is travelled every day by the public and by children living in the suburbs who attend the Edmonton schools. But a more serious nuisance has of late been menacing the health and safety of these children and the travelling public. Dead sheep and other have been dumped over the river bank opposite the Gallagher-Hull packing house. These lie there rotting until high water comes to sweep them away. In the meantime it is difficult to drive an intelligent horse past the packing house and the small reaches high water mark before the river comes to the rescue.—OBSERVER.

East Edmonton, May 16th.

STORM IS GENERAL.
Telegraphic reports from all over the Territories and the western states tell of extensive storms. Southern Alberta seems to have been the most unfortunate as here is reported a great loss of life among the young cattle on the ranches. Snow is piled high in every direction. The storm seems to have rambled from the coast taking the form of heavy rains in Manitoba. One result of the storm was the washing out of over twelve hundred feet of track on the Canadian Pacific railway about six miles east of Calgary, Edmonton is experiencing the tail end of the storm today.

THE SEDIMENTATION BASIN

A gang of men is at work preparing the sedimentation basin of the waterworks system near the power house. A special arrangement is being made in the basin to partially surmount the difficulty of getting clear water while the river is muddy. The main pipe enters the basin at the north end from the river. Two branch pipes lead from the end of this intake pipe and the water enters the basin from these. Any mud coming through the pipes will tend to settle in their immediate vicinity. The pipes which carry the water from the sedimentation basin to the power house to be pumped through the town, open from the other end of the basin where the water will be the clearest. Through time this difficulty of muddy water will be overcome by installing a filter basin at the power house.

Drains are being laid in the bottom of the basin and these will be lined with cement. If at any time it is considered necessary to clean out this basin, the water can be lowered, and by means of a small hose, all foreign substances can be washed out of the drains. Through time the basin will have to be enlarged and cemented throughout.

CALGARY LIVE STOCK SALE.

D. C. Robertson returned to Edmonton Saturday night, from attending the Calgary Live Stock exhibition and sale of purchased stock. He reports the sale as most successful in every particular. The houses exhibited were of a very superior grade and were a very distinctive credit to the West. Lacombe made an excellent showing in cattle and the different exhibitors from that town carried off most of the prizes for cattle. Six cars of thoroughbred stock sold at Calgary, left there on Saturday for various points along the Calgary & Edmonton railway. Mr. Robertson brought back with him a thoroughbred shorthorn bull.

THE FAR NORTH

Kaninops Island Sentinel.
An announcement made in the Winnipeg papers states that the Hudson's Bay company's usual summer transport down the Mackenzie to the Arctic Ocean is expected to leave Athabasca Landing this month and that letters for these far northern points served by it will be taken. There will only be another opportunity to reach the farthest north in the season, in July. This recalls the fact that though the vast part of the territory formerly known only to employees of the Hudson's Bay and Northwest Companies is no longer a mere preserve for fur gathering and for Indian trading, but is now peopled by thousands of enterprising farmers, miners, merchants and others there still remains an enormous expanse of country of which so little is known, even to Canadians, that it is clothed with just such an air of mystery and vague wonder as was New Caledonia and the Red River country a century ago.

During that century the march of events has tended to the inevitable goal of the influences of modern civilization and enterprise. A hundred years ago none of the hardy hunters and trappers, who made their way across the Rockies and grazed upon the unknown land of the west, ever dreamed of it becoming what we find it today. In the same way the unknown lands of the far north will one day cease to be a howling wilderness, the home of wandering tribes of Indians and of wild animals, and visited only by a few explorers and hunters.

Gradually the impression that the far north is absolutely useless to man is being dispelled and it is now known that crops can be grown and cattle herded and fed in latitudes hitherto regarded as prohibitive. By degrees the thousands of new comers into the Northwest are forcing their way north the advance guard of thousands more, who will follow, accompany, and pass them.

The Building Boom

is now on and the demand for lumber is very keen. If you want to get materials on the ground in time for your building you had better order from us at once. The undecided man puts things off. He always waits until tomorrow so he can change his mind. Then he waits until the next day so he can change it back again. In the meantime, lumber gets scarce, prices go up and he blames the lumber combine. Alberta lumber is scarce now, but we are shipping in B.C. lumber as fast as we can get it. At the rate of a car a day, and we can take care of your order if you give us a chance. **FLYTIME** is now here and the flies are always present. Better place your orders at once for screen doors and windows. It is much easier to keep out the flies than to drive them out when they get in. **CUSHING BROS. CO., LTD.**

CAPITAL AND LABOR

From all parts of the civilized world come reports of strikes. All branches of trade have their labor organizations and all members must stand by the demands of the union as a whole. If differences between capital and labor exist the greatest care should be taken to have these differences amicably settled. A strike is just as disastrous to labor as to capital and in many cases more so. Carried sufferings have been endured by strikers in their efforts to force their employers to come to their terms. In many instances they have been successful, and in others partially so. The recent strike of the longshoremen at Montreal has been settled with better hours and pay for the men. In Calgary the carpenters have gone out on strike on account of non-union men being employed. This is a great disaster, coming as it does, when towns all over the Territories are engaged in extensive building operations. Think what a demoralizing effect a strike in Edmonton at the present time would have on our progress. All building would be at a standstill. The carpenters themselves would lose by the strike and the contractors and owners of the buildings in course of erection would lose much more heavily. A state of affairs like this now exists in Calgary. The Calgary Herald describes the situation as follows:—

"One thing, however, is certain: such a strike coming at the outset of what is promised to be the most prosperous season in Calgary's history is nothing short of a catastrophe. The Herald can speak with authority in saying that if this building season has enough difficulties to contend with already, and that if their burdens are further added to, any of them will postpone their enterprises indefinitely and wait for better conditions."

The union labor men have many friends among the public. The Herald's advice to them is to take no action that may jeopardize their position or alienate the public support, without which no organization can successfully exist.

Unless the union carpenters can show that the present strike is justifiable and has only been decided upon after the most careful deliberation and after all reasonable and peaceful means to secure a settlement have failed they will by continuing this strike deal a blow at the interests of the city of Calgary that will be disastrous for all concerned, themselves included, because they are an important part of the community and directly dependent on the active continuance of building operations.

Strikes are bad in principle and not in accord with the best interests of all and there is a trend of public sentiment all over the world against them in view of the incalculable losses which have occurred through labor troubles."

Irrigation in Southern Alberta

Lethbridge, N. W. T., May 18.—Interest in the new work being undertaken by the Irrigation company increases with a realization of the importance and magnitude of their rapidly expanding enterprise. In addition to the large colony already placed on lands to the south of the town tributary to the Galt canal and to the large impulse that has been given to the homesteading of Dominion lands in the Woodpecker, Grassy Lake and other districts, the enlargement of the Galt system is going to open a greatly enlarged area for settlement to the colonist and cultivator. The section of the canal joining the Milk River to the original ditch will reduce at least fifty thousand acres of choice land, independent of what may be included later by reservoir construction at greater distance from the canal. The Chin Coulee extension, which is a lead from the present canal at about eight miles south of Lethbridge will bring in a hundred thousand acres of new land at least, with the probability of much more when more complete tributary surveys have been made. The Scotch engineer, Mr. G. G. Anderson, is rather fond of keeping his predictions in the wake of operations, but it is safe to say that the enterprise which he has so propitiously directed from the beginning will develop in ten years to be the giant enterprise of its kind in North America. The system is capable of unlimited extension, and it will probably take ten years to complete it.

The 25-foot ditch leading from Milk River will be laid out by July, at which time construction will begin. It will take a year to complete this work

and it will be 1204 before lands can be located by settlers. The grade will be at work on the Chin Coulee division within a week. Operations are likely to be somewhat slow on account of the scarcity of labor. There will be employment for two or three hundred men on the new work after the first of July, but this number will probably not be available owing to the active farm operations in the best district of the neighborhood. The extension of the railway from a Spring Garden to Cardston will give considerable work also, and the demand for labor is already sharp and not by any means satisfied by the local supply.

CALGARY PURE BRED SHOW

The exhibit of purebred stock, and auction sale of purchased stock, conducted by the Territorial Horse Breeders' and Purchased Cattle Breeders' Association was completed on Friday evening last at Calgary.

The exhibit and auction sale was a huge success in every particular. A large number of animals of the highest class were on exhibit, and many were afterwards sold. About three hundred cattle in all entered the various competitions. The different Live Stock Associations and C. W. Peterson, manager of the fair, deserve the greatest credit for the successful way in which the fair was conducted.

200 = LOTS = 200

A portion of the ROWLAND ESTATE, otherwise known as "THE SYNDICATE."

Plans and Prices can be seen at the Office on and after the date mentioned.

This is the closest and best property available, and the choicest in and about Edmonton. The furthest part is from 10 to 15 minutes from the post office. The property is eminently the people's portion: is not controlled by a policy of inertia dictated by "Hebraic Hatred." The surveys conform to existing ones, and the streets will be projected to their legitimate confines. Building Sites on the verge of the hill overlooking the mighty Saskatchewan, the foliage and verdure of whose banks is not exceeded by the fiercest tropics or softest Pacific scenes, abound. Prices will be uniform and moderate, tempered as a corrective of the present indefinite craze.

TERMS.—One third Cash. Balance 6 and 12 months, interest 8 per cent. Agreements \$2 each, transfers free.

BEAVER HILLS

This fine weather is causing the farmers here much comfort and seedling is the order everywhere. The acreage under crop is being steadily enlarged.

Mr. Hodgins, of Edmonton, occupied our pulpit last Sunday morning.

The Beaver Hills club of the hills has started practicing and is confident of putting a strong nine in the field.

Mr. Chisholm is improving his property by erecting a line fence around it.

Mr. Fred Newton leaves on Monday next for an extended visit to his former home in Dakota, while Miss A.

Newton leaves about the same time for Montana.

Mr. Seaman has rented his farm in Good Hope, E.D., and is moving to the Hills.

Mr. Perret, public school inspector, has been inspecting the schools in this neighborhood.

May 15th.

VEREVILLE

We have had a cold backward spring but it has now turned out nice and seedling is in full blast. The farmers are jubilant as they expect fine weather and good crops.

Joe. Tatro has arrived home from the Edmonton hospital, where he was operated on for appendicitis. He is looking well and everyone is glad to welcome him back again.

Mr. Lord Stouchawker has moved on to his claim near Sick Man's Lake.

The Sunday school was started again last Sabbath with Mr. Fleming as superintendent. There will be Sunday school and preaching now every Sunday at the Vegreville schoolhouse.

Mr. Woodside, a Presbyterian minister, has arrived and we expect to see Mr. Rothery next week. We are all anxious to welcome Mr. Rothery back.

Our new school teacher is doing well. The children are all fond of him.

May 15th.

NOTICE.

To Contractors, Farmers and all who have machine liable to renewal or repair.

The business heretofore carried on under the name of the "Edmonton Iron Works" will now be transacted by the "Edmonton Iron Working Company" at the same place of business as in the past.

The new company is now installing new machinery so fast as it can be got upon the ground. The company is also prepared to furnish to the various trades all cast iron work and machined castings at a price that will prohibit importation of these things.

CONTRACTORS.

Contractors can procure cast iron columns of any design, cast weights, cast doors, truss rods, bolts, and nuts, for building and bridging purposes, etc., on shortest reasonable notice.

FARMERS.

Farmers can have their mowers, binders and thrashers overhauled and put in first class state, thus, in any case, saving the expense of a new machine for some years.

OWNERS OF ENGINES AND BOILERS.

Competent men are always on hand to go into the country and repair engines and boilers that cannot be brought to the shops.

Tubes, steel for patches, patch bolts, etc., always on hand.

TERMS.

Terms cash, except in cases of contract accounts.

The new company asks no favor from the public except opportunity, therefore if work is not promptly and satisfactorily performed it will be deemed sufficient reason for the discontinuance of the customer.

Customers will confer a favor upon the company by reporting any laxity or discounting by the employees in the performance of their work.

All correspondence to be addressed to The Edmonton Iron Working Co. Edmonton
